

# Responsible Manager (OBS) Assignment when Copying a P6 Project

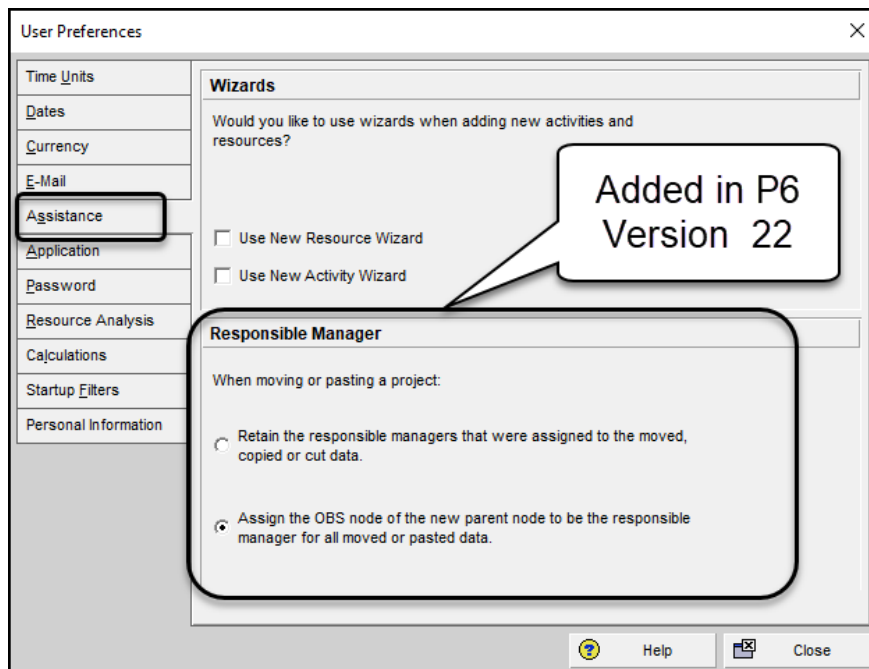

The P6 **Responsible Manager** assigned to a project is selected from the list created in the OBS table and decides who has access to a project and what level of access they have.

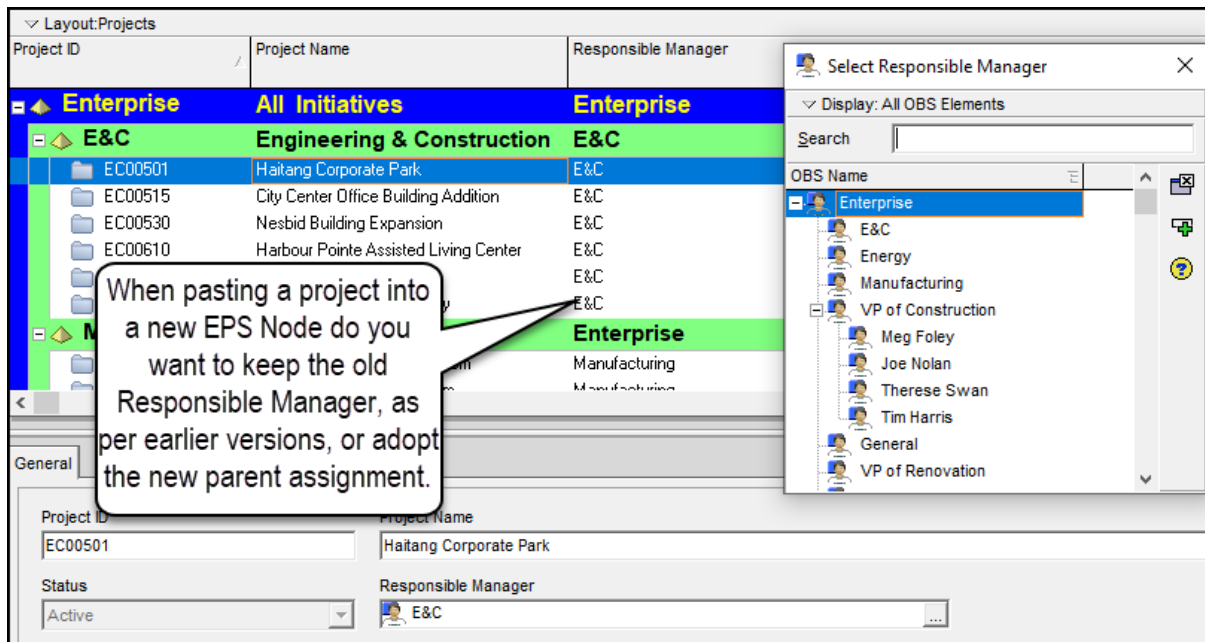

P6 Version 21 and earlier kept the same **Responsible Manager** when copying and pasting a project.

P6 Version 22 introduced a new **Responsible Manager** option in the **User Preferences** for the assignment of the **Responsible Manager** to a copied project, allowing each user to two options for the OBS, either:

- Keep the old assignment, as per earlier versions, or
- Adopt the new parent assignment.

Often neither the parent assignment or keeping the original assignment are a logical option and the option to select a new code when pasting a project is not available.

Accelerate your understanding of scheduling software to advance your scheduling career and be able to prepare better schedules with [Eastwood Harris books](#), training courses and online videos on the following software packages:

- Microsoft Project,
- Oracle Primavera P6 and
- Elecosoft (Asta) Powerproject

Online video training is available through Udemy through following these links:

- [Microsoft Project](#),
- [Oracle Primavera P6](#) and
- [Elecosoft \(Asta\) Powerproject](#)
